

FAMILY ALLOCATION ACTIVITY

Determine the family allocation amount for each of the scenarios.

Scenario 1

Molly resides in an LTCF. She has two children who live with her ex-husband. The children are Wendy (age 17) and Mark (age 19). Molly is responsible for verified court-ordered child support for Wendy in the amount of \$300 each month. The child support is deducted directly out of her earnings. Wendy earns \$50 a month babysitting (verified). Mark works part-time and earns \$300 each month (verified).

What is the family allocation amount?

Scenario 2

Gary receives services through the Elderly Waiver. He lives with his wife, Mary, and their two daughters, Greta (age 12) and Gracie (age 15). Neither of the girls has income.

What is the family allocation amount?

Scenario 3

Harriet resides in an LTCF. Her daughter, Karen (age 12), lives with Harriet's husband, who does not receive LTC services. Her son, Kyle (age 17), lives with Harriet's ex-husband. Kyle earns \$500 a month (verified). Karen has no income.
